EDITORIAL PROGRAM 2024

TECHNICAL DATA

Published since 2007 as **Composite Solutions**, this magazine is the first bilingual English/Italian magazine dedicated to the composite materials industry. In 2018 the magazine expanded its contents also including the technopolymers industry for the further production of structural parts, embracing the entire industry; for this reason the new name of the magazine has been changed to: **Composite Solutions & technopolymers**.

As a result, the circulation was consolidated by printing 5,500 copies distributed to the technicians of the industry. In addition, the digital version is sent to around worldwide 48,000 industry professionals.

Therefore, the magazine is distributed as follows:

Italy 3,200 paper copies and 8,300 digital copies;

Europe: 1,300 paper copies and 26,500 digital copies;

Rest of the world: 1,000 paper copies and 13,200 digital copies.

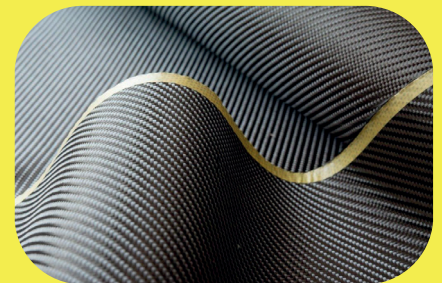

The mission: of the magazine is: to provide information on the use of various raw materials and chemical products, fibers and anything else needed for the production of structural parts, R&D, laboratory tests, production processes, molds and design technologies.

Composite Solutions & technopolymers affiliated to the **OCTIMA Organization** organizes technical conferences, seminars and exhibition areas.

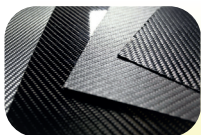

Our editorial staff sends the link to the magazine every month via email and you can browse it for free.

EDITORIAL PROGRAM 2024

TRADE FAIRS WHERE THE MAGAZINE IS DISTRIBUTED

ISSUE N°1 (JANUARY – APRIL)

- JEC WORLD
5th -7th March – Paris (France)
- AEROSPACE & DEFENSE MEETINGS
26th-27th March – Turin (Italy)
- AERO-EXPO
17th-20th April – Friedrichshafen (Germany)

ISSUE N°2 (MAY – SEPTEMBER)

- CHINA COMPOSITES EXPO
2nd-4th September – Shanghai (China)
- CAMX - 9th -12th September – San Diego, California (USA)

ISSUE N° 3 (OCTOBER/DECEMBER)

- KOMPOZYT EXPO
To be decided – Krakovia (Poland)
- EURASIAN COMPOSITES SHOW
To be decided - Istanbul (Turchia)
- COMPOSITES MADRID
To be decided – Madrid (Spagna)
- CARBON FIBER
To be decided - Location to be decided (USA)
- ADVANCED ENGINEERING
30th -31st October - Birmingham (UK)

MAIN TOPICS COVERED IN 2024

- Design and Selection of Materials
- Laboratory – Products, Materials Testing
- Raw materials for the Production of Composite Materials
- Raw materials for the Production of Structural Parts with Different Matrix (Polymer, Ceramic, Hybrid, Metal)
- Raw materials for the Production of Technopolymers
- Raw materials for the Production of Polyfunctional Polymers
- Natural Raw Materials for the Production of Resins, Fillers, Additives, Dyes and others
- Production with Nanostructured Materials for Composites and Technopolymers
- Raw materials for the Production of Adhesives and Sealants
- Reinforcement fibers and Natural and Synthetic Technical Textiles
- Prepregs and different Technical Fibers
- Core Materials
- Products for the Finishing Process
- Products for the Production Process
- Products for the Surface Treatment
- Products and materials for 3D Printin
- Software, process hardware
- 3D Printing
- Technologies for the Production of Moulds
- Manufacturing and different Process Technologies
- Use of Structural Adhesives and Sealants for the Manufacturing Process
- Sandwich Panels
- Laboratory, Equipments and Tools
- Manufacturing Systems
- Manufacturing and Process Technologies
- Ecology
- Recycle and Sustainability
